PROJECTS

Beer Finder App

- [Github](#)
- This project helps in providing every detail regarding the beer which we have searched for and also tells where it will be available near us.
- Tech-Stack: React Native, Redux, native-base

Library Fine Project

- [Github](#)
- Created a website in which students after log-in, they can get to know all details of the books they have issued from library i.e. how much fine they have to pay for that particular book or when is the due date. They also get a warning e-mail one day before the due-date such that they can return the book on-time.
- Tech-Stack - Python, Django, HTML, CSS, SQLite

Newsletter

- [Github](#)
- This project keeps on providing every detail regarding COVID-19 via mail after every 24 hours i.e. how many total cases are there, how many have recovered state wise whosoever subscribes to our Newsletter Web-App.
- Tech-Stack: Python, Django, Web-Scraping, HTML, CSS

ACHIEVEMENTS

- Qualified the National Online Quiz Competition on Computer Science and IT skills.
- Part of the YAY Ambassador Program in collaboration with GirlsScript for one month.
- One of the co-ordinaters for the College fest who bring sponsorships for the fest.
- Participated in Yuva Kranti Rath conducted under social welfare scheme with aim of recognizing hidden talents of youth and put them in right direction.
- A dedicated member of the society of Youth For A Cause which visits NGO and donate cloths to the NGO.
